## SAFETY TABLE

Toe protection (safety toe cap)	Sole insulation (cold)
Slip resistance ** Ceramic floors + detergent	Sole insulation (heat)
Energy-absorbing heel	Electrostatic dissipation
Anti-static	
Puncture-resistance Metallic insert Wide point test (4.5 mm)	
Slip resistance ** (ceramic floor + oil)	
Water-repellent upper	
Hydrocarbon-resistant	

## ENVIRONMENTAL FEATURES

At Parade, we carry out a life cycle analysis to measure the environmental impact of each of our models: from the extraction of raw materials, manufacturing, use, logistics, right through to the end of the product's life. Our environmental impact calculators, developed in-house using ADEME's EMPREINTE® database, have been certified by AFNOR for textiles and validated by the Pôle Eco-conception\* for footwear.

\* The Pôle Eco-conception is the French national centre for eco-design and life-cycle performance. Its expertise is recognised nationally and internationally by ADEME, the French Ministry of the Environment, AFNOR, ISO and the UN-environment.

## EXTRAS

- DRS SYSTEM 2 technology for shock wave dissipation
- BE-FLEX 2.0 technology for a flexible sole and maximum comfort
- VPS SYSTEM technology: supports the arch of the foot
- 3D MESH lining
- ESD
- Stitched front reinforcement
- Steel toe
- Steel plate
